

As a member of **REEF ALLIANCE**, I am committed to educating **SeaTREK** guests about the fragility of the coral reef environment within my **SeaTREK** dive site.

- I will share my knowledge of the reef ecosystem and exercise prudent reef conservation
- I will do my best to prevent anyone from touching, kicking, standing on or removing marine life
- I will do my best to never let equipment elements of the **SeaTREK** system contact coral or marine structures
- I will recover trash from the sea and recycle whenever possible
- I will use mooring buoys and / or proper mooring techniques when operating from a vessel
- I will endeavor to educate each and every guest about endangered species, reef conservation, and responsible diving practices.

It is my responsibility to respect and share the privilege of exploring our ocean realm with each and every guest. I pledge to take only photos and leave only bubbles. I am committed to behavior that assures the least amount of impact on our ecosystem.
